

Surface Brightness: Task 33

The diagram shows the distribution of black body radiation with respect to the wave length.

1

$$\dot{q}_{b,\lambda_1 \rightarrow \infty}'' = \dot{q}_b''(1 - F_{0 \rightarrow \lambda_1})$$

2

An expression for radiation in interval $[\lambda_1, \infty]$ is obtained by black body radiation \dot{q}_b'' and function $F_{0 \rightarrow \lambda_1}$, which gives the corresponding fraction.
